A. These companies are mostly supported by the government, and even many officials are their major shareholders. As I said before, they have more tolerance to resist against difficult situations. They can find better solutions for their problems than the other ones. Successful companies are backed by talented people, prudent administration, huge money and a bit of luck.

Q. Is it easier to work as an employee or to manage a company? Why?

A. I think working as a simple staff is far simpler. They do not have any concern about bankruptcy or loosing of market share and money. A simple employee only follows the rules and works, although he or she has less income than a business person. In terms of easy life style doing job in a reputed and high paying organization is far better in my opinion. Running a successful business requires hard work, huge capital and vision. Not all people have these qualities
